

NBPS Allocation of Children to Classes

From September 2014 Norris Bank is a two-form entry school.

Our aim is to have two parallel populations with an even distribution of age and gender. This is achieved by allocating the boys and girls separately based on their date of birth, oldest to youngest, alternating them between each class. In addition, factors such ethnicity, EAL as well as SEND are also considered.

PLEASE NOTE THAT THE HEAD TEACHER'S DISCRETION MAY BE USED IN SOME INSTANCES OF ALLOCATION.
